

# User Preferences Survey: March 2016

Web users were prompted to complete a survey while browsing the AnxietyBC website. The goal was to find out: What additional services would users like to see developed? What parts of the site do users find most useful?

Here are the findings:

If AnxietyBC were to expand, what new services would users like to see AnxietyBC offer?

How many users rate various parts of the site as “very useful”?\*

\* Breakdown of responses, and number of respondents below

# Perceived website usefulness

Users rated how useful they find the following:

**Quicklinks** 545 responses

**MindShift App** 362 responses

**Videos** 316 responses

**Resources: articles** 304 responses

## Self Help Information

**Children, adults, youth** 292 responses

**Parents** 282 responses

**Treatment**

276 responses
